Profile Summary

Computer Science graduate with hands-on experience in full-stack web development using React.js, Node.js, Express.js, and MongoDB. Skilled in Java, JavaScript, SQL, and Data Structures & Algorithms with a strong foundation in Object-Oriented Programming and Database Management Systems. Completed an SDE Internship and developed multiple full-stack projects, demonstrating strong problem-solving and software development skills.

Technical Skills

- **Programming Languages:** Java, JavaScript
- **Frontend Development:** React.js, HTML5, CSS3, Tailwind CSS, Responsive Design
- **Backend Development:** Node.js, Express.js, REST APIs
- **Database & Query Language:** MongoDB, MySQL, SQL
- **Data Structures & Algorithms:** Arrays, Linked Lists, Stacks, Queues, Trees, Hashing, Sorting, Searching, Recursion, Sliding Window, Two Pointers
- **Core Computer Science:** Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems, Software Development Life Cycle (SDLC)
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, Power BI, MS Excel, Google Sheets
- **Soft Skills:** Team Collaboration, Quick Learner, Time Management, Communication, Problem Solving.

Experience

1. Software Development Engineer (SDE) Intern | Beritrave Technologies

Mar 2026 – May 2026 ([Link](#))

- Developed and maintained web application features using React.js and Node.js.
- Worked on API integration, debugging, and frontend-backend communication.
- Collaborated with the development team following software development best practices.
- Participated in testing, bug fixing, and performance optimization activities.

Projects

1. Amazon Clone | React.js, JavaScript

Jun 2025 – Aug 2025

- Developed a responsive Amazon-inspired e-commerce application with product listing, shopping cart, and user authentication features.
- Built reusable React components and optimized UI responsiveness to provide a seamless shopping experience across devices.

Live Demo: <https://amazon-clone-rho-lime.vercel.app/>

2. Employee Management System | MERN Stack

Sep 2025 – Dec 2025

- Developed a full-stack employee management platform to manage employee records, departments, and organizational operations efficiently.
- Implemented complete CRUD functionality using REST APIs and MongoDB, enabling secure and scalable data management.
- Designed a responsive dashboard using React.js and Tailwind CSS, ensuring an intuitive user experience and smooth frontend-backend integration.

Live Demo: <https://emp-manage-silk.vercel.app/>

3. Travel Ease – Car Rental Platform | MERN Stack

Jan 2026 – Apr 2026

- Built a full-stack car rental application that allows users to browse vehicles, book rentals, and manage reservations online.
- Implemented secure authentication, vehicle management, booking workflows, and real-time status updates through RESTful APIs.
- Developed a modern, responsive interface with React.js and Tailwind CSS, focusing on user experience, performance, and mobile compatibility.

Live Demo: <https://travel-ease-delta.vercel.app/>

Education

ITM University, Gwalior

Jul 2021 – May 2025

- B.Tech in Computer Science & Engineering
- CGPA : 7.58

Modal Foundation Higher Secondary School

Jul 2020 – Mar 2021

- Class – 12th
- Percentage : 84%

Certifications

Udemy Certified: Data Analytics, Power BI

Salesforce Certified: Administrator & Developer

Infosys springboard Certified: Python, Java

Statement of Purpose

I hereby declare that the information provided in this document is true to the best of my knowledge and belief.
